

## **Strengthening of pledge and de-pledge transaction process by banks-branches on the CCRL platform.**

It has been observed that a significant number of pledge and de-pledge transactions pertaining to eNWRs remain pending at various bank-branch levels. Accordingly, all bank-branches are hereby requested to ensure that such pending pledge and de-pledge transactions are duly completed in the Repository system in a timely manner without delay. Timely completion of these transactions is essential for maintaining regulatory oversight and preserving the integrity and sanctity of the eNWRs.

It is incumbent upon all bank-branches to familiarize themselves with the aforesaid process and to incorporate the same into their operational practices. Compliance in this regard will assist in upholding the integrity of the system, adherence to applicable regulatory requirements, and ensuring full operational compliance.

Banks-branches are advised to take note of the above and ensure compliance with the same.
